Guilloche elements are repeated geometric patterns with thickness of a few micrometers or nanometers. These special design elements make graphics more attractive. At the same time, guilloche pattern has been already employed in many fields: advertising, and design decoration, graphical security, anti-counterfeiting, anti-copying and special inks. Guilloche elements may be easily included into any graphic design and be used as your own logo element. Guilloche elements are available in high-quality materials such as: gold, silver, bronze, copper and stainless steel. Each material has its own peculiar design, color, and texture. Guilloche elements can be used for design of your own corporate or other logos, as well as for creating an individual decoration. CERBERUS® offers the possibility to create guilloche elements on the basis of the following elements: square, rhombus, circle, cross, star, cross-with-cross-tongue, spider, geometric, diagonal, etc. Using the software CERBERUS® is easy and is performed within a few clicks. Using CERBERUS® is the quickest and simplest way to create your own guilloche elements, along with working on the most modern and safe software, which is a cryptographic service. WHAT MAKES IT DIFFERENT FROM THE OTHERS? WHAT MAKES CERBERUS® DIFFERENT FROM THE OTHERS?
