Miyana has her priorities right, Ludo something is better wife material than Regina.

I, too, would make him cook for me too. Food >>>> all.. Ayumi: Enhanced Edition is a great little game. I purchased this in January shortly after the 2.55 update, and was pleasantly surprised at how well this title is put together. The game makes heavy use of pre-made assets, but it does so in a way that builds an atmosphere of horror and suspense. The scares are spaced out in such a way that the game builds up a sense of dread, and then does something shocking, which made me jump more than a couple of times. As far as content, there's a lot of game here. You can finish this title in about an hour or so, but there's so many little things to find, as well as alternate endings. The game's story is interesting, and is sprinkled with bits of Lovecraftian mythos, which really helps to set the stage. This product is well worth the asking price, and the creator Lord Rutsah has put a lot of love into this title, and it shows.

TL;DR: Crazy space Cthulhu horror game with Yellow Mythos, and lots of scares! Buy it!. This is like the old club penguin pizzatron 6000, except more complicated. the soundtrack is pretty great too! i got this game on sale for 77 cents, but i didnt expect how good this game was going to turn out.

i guess the only problem about it is the hand cramps after playing too long, since you need to use the mouse... First season was interesting but didn't quite pull me in. But the second season really expands all these sketches into a full-fledged story with memorable quotes along the way.

Loved it.

Granted, it's not Tolkien nor GRR ... it is actually a not so simple journey within a not so simple quest :). quality game changed my life drastically!

price is a bit steep but trust me it's worth it!!!!

From MST3K to the Big Silver Screen at AMC or any other Movie Theater, YDKJ Movies is a pretty good CD-ROM Cinema Trivia/Digital Download Game. Don't forget the Popcorn, Candy & Snacks before you take your seat in your Local Movie Theaters, New Releases or Classic Movies.. Innovative ideas with the hidden object search. You look for items that build new items, that in turn unlock items to build items. Unfortunately, this just serves to pad out a rather meager three worlds, and the game itself can be completed in under two hours. If I were a petty person, I'd ask for a refund, but I picked this up for dirt cheap anyways, and it does have the occasional redeeming moment. Grab it on sale, or get another game like Nearwood.. A very simple game with enough scientific rigor and visual beauty to bring me back in, this game is a fantastic palate cleanser and, for the microbiology fans, quite an evolutionary ride.. Great 4X Single player RTS.

Its like Earth 2150/Starwars Empire At War in space,
you can equip and upgrade your Space Station/Base with weapons,
your ships/units and harvesting buildings.
You collect resources , research point and have a lot of tech to unlock.

<https://www.youtube.com/watch?v=ac9vr8sG60g&index=1&list=PLWrIqGszZr5kOs-miRm2xWTUPLF2t6KT1>. Man! Does this game have potential. Man! Does this game mess it all up. I love the setting, and the design, and a lot of the artwork and everything. This game has a mind-boggling amount of potential. The main issue is...it's a pretty poor game. The shooting is strange, the animation is laughable, the graphics are pretty poor, and the controls are awkward. So sad. I'd love to see this game get a remake, because it could be an amazing game, if it didn't have so many issues in the gameplay itself.. Simply put, this game is a must have for every puzzle game enthusiast!!! I found this game to be challenging and rewarding.
