### About This Game

Guide The Ball is a physics based puzzle game. Navigate through barriers, traps and other hazards by building pathways to roll a ball through the map. Plan, build and create your own solutions to over 300 levels spread out through 10 distinct areas, each with their own unique hazards, effects and game-play. Originally a mobile game.

-Create your own solutions: Use different sized blocks to create a solution to each puzzle.

-Find your own path: Each level can have multiple solutions to victory.

-Fresh and new Game-play: Each level has it's own challenge and all 10 areas have new game mechanics to keep you challenged.

-Over 40+ hours of game-play.

Note \* Bricks can be rotated with qwer keys and moved around with the arrow keys. The game gets progressively harder as it goes on and the game-play keeps changing. Second half of the game is harder than the first half.
